dominic@krando.com

Krando Metal Products, Inc. turned 36 this year. Our company began with a modest dream of success and has grown into a formidable presence in the masonry industry. We credit our success to the ever-growing customer base, the friendships that we have created over the years, as well as a strong persistent attitude towards this industry.

Our company prides itself on providing high quality goods and services manufactured in a timely manner, while keeping costs under control. This level of service set us apart as a leader in the industry.

In an effort to stay ahead of the curve, we are continually investing in new and better machinery, technology, as well as training. Our recent addition of an Emmegi Milling Machine has opened capabilities in the Aluminum Extrusion and Curtain Wall markets. This along with many other advances will keep Krando a leading manufacturer of all construction needs. We look forward to sharing Krando Metal Products with you soon and proving how this company is the best asset you could have.
