- 54 FRACO towers
- 60 masons and 40 laborers at the peak of construction
- 14 months to complete
- Masonry price \$20 million +

"We are proud of the craftsmanship that went into this successful project. It would not have been possible without the high-quality masons that came out of the Hall."

Nick Sabia, President, D.M. Sabia & Co., Inc. (Third Generation)

"Their professionalism, dedication to quality and detail along with their highly trained and skilled unionized workforce make them one of our top signatory employers. The fact that Princeton University chose them to perform the masonry and demonstrate the beautiful aesthetics on this project just reinforces who they are as a top contractor in the unionized masonry industry."

John F. Capo, Director Bricklayers and Allied Craftworkers ADC of NJ, Locals 4 & 5

"D.M. Sabia is one of our premier masonry contractors; one of only a few that work in New Jersey that can handle a project like this. Thanks to their company workforce and professionalism, along with qualified union labor, the project was completed on time and under budget and is beautiful. This is a testament to the true collaboration between management and labor."

Leon Jones, Secretary Treasurer Bricklayers and Allied Craftworkers ADC of NJ, Locals 4 & 5

D.M. Sabia recently celebrated 100 years in business. The family business passed their skills down from generation to generation and are now preparing the fourth generation to take the reins of this prestigious company. They have completed many large, sophisticated masonry projects in New Jersey and Pennsylvania, over 50,000 projects in total, and have built a reputation for high-quality craftsmanship with safety as a key component.
